

# Leafy Vegetable & Brassica

## Customizable Personal Program Selection Guide

	Product	Seed Treatment & In Furrow	Growth (3rd Leaf)	Head Begin	Post Harvest	Comments
Choose One	<b>EZ-Gro SA</b> (Seed Treatment)	2ml/L				Spray or soak seeds prior to planting. Enhances germination during cold and drought
	<b>EZ-Gro GA<sub>3</sub> B</b> (Seed Treatment)	3ml/L				Spray or soak seeds prior to planting. Enhances germination during cold and drought
Choose One	<b>EZ-Gro Liquid Starter 5-20-5</b>	3-5L/MT water drip irrigation				Supplies nutrition for germination and early growth
	<b>EZ-Gro Starter Fertilizer with Ca &amp; Mg</b>	3-5L/MT water drip irrigation				Supplies nutrition for germination with Ca & Mg and early growth
	<b>Life-T Starter 15-30-15</b>	3-5kg/MT water drip irrigation				Supplies nutrition for germination and early growth
Choose One	<b>EZ-Gro Crop Aid</b> Use under normal conditions		100ml/MT			Increases leaf production and growth
	<b>EZ-Gro Enhance</b> Use under drought conditions		500-1000ml/MT			Increases leaf production and growth. Reduces environmental stress

## Greece

Choose One	<b>EZ-Gro Chitophite</b> Foliar Option 1		500ml/MT		Increases plant disease protection
	<b>EZ-Gro Secure</b> Foliar Option 2		1L/MT		Increase plant disease protection
Choose One	<b>Premium Liquid 10-10-10</b> Irrigation Option 1			3-5L/MT	Supplies nutrition for next growth period
	<b>Life-T 20-20-20</b> Irrigation Option 2			3-5kg/MT	Supplies nutrition for next growth period
<b>Environmental Protection Options</b>					
	<b>Aqua-Regulate</b>	2-4L/MT at first sign of drought. Apply to foliage or soil to combat dehydration/crop loss. Improves growth/survival.			
	<b>EZ-Gro Secure</b>	1-1.5L/MT water spray at onset of disease, every 2 weeks. Enhances plants SAR metabolism with unique copper complex that reduces copper use.			
	<b>EZ-Gro BR</b>	500ml/MT foliar to enhance at beginning of drought/bud formation. Reduces environmental stress. Enhances yields.			
<b>Deficiency Correctors</b>					
	<b>EZ-Gro High K (0-0-35)</b>	Use 1L/MT as often as required to correct Potassium deficiencies.			
	<b>Cal Boost (Ca 10%)</b>	Use 1-3L/MT foliar. Irrigation every 14 days to correct Calcium deficiencies.			
	<b>EZ-Gro Micro-Triacontanol</b>	500ml/MT to correct micronutrient deficiencies.			
	<b>EZ-Gro CaB</b>	Use 1L/MT to correct Calcium and Boron deficiencies.			
<b>Adjuvant</b>					
	<b>EZ-Gro SSP</b>	25-100ml/100L water with PGR, Herbicides, Pesticides, Fertilizers and Trace Elements			
	<b>EZ-Gro SSP Plus</b>	25-100ml/100L water with PGR, Herbicides, Pesticides, Fertilizers and Trace Elements
